

**Hurricane Harvey Response 2017
Community Liaison Exit Report**

TO: Sam Tates & Janetta Coats

FROM: Bill Dunbar & Sheila Burrus

SUBJECT: Exit report

COUNTIES: Brazoria & Galveston

DATE: 9-22-17

Brazoria County:

- FEMA should be establishing DRCs in the county soon, likely within a day or so. Juan Ayala of FEMA is the best contact for updates on location & timing.
- Many places in the county were hit hard, with many residents in shelters for the last several weeks. FEMA's 'mitigation' experts at the DRCs we've visited in Galveston have been excellent resources for residents tackling their mold problems – and they provide the large FEMA/EPA/CDC mold fact sheet -- but they don't have much info available on septic, wells, drinking water disinfection, carbon monoxide, lead paint, or asbestos. Assuming the Brazoria DRC(s) have good 'mitigation' experts on hand, it's probably adequate to just ensure they have our facts sheets available for people they're helping.
- Steve Rosa and Glenn LaMont at the county's OEM in Angleton are very good and plugged-in people and thus the best primary contacts.
- While we reached a good number of houses of worship, there are many churches that we've not had a chance to visit – this is where we'd advise any additional work to focus. Below there is a partial list of churches in the cities of Brazoria and Sweeny.

Galveston

- Dickinson and League City were hit very hard, thus the establishment of DRCs there.
- We have NOT done much in the way of outreach to houses of worship, so this would be a good area of focus.

- Garrett Foskit and Meaghan Kenny at the county OEM in League City (address says Dickinson) are extraordinary, and thus the best overall contacts in the county. Here's a list of the OEMs in the cities within Galveston: <http://gcoem.org/contact-us/>
